

they want to
destroy our hopes!

and our land!

they want to take
1600 ha of our
livelihood and
nature

just for profit!

build another
airport?
why?

crisis!?

get your rucksack,
there's work to do!

i'm coming!!!

Nantes

9 months ago, the wrench of a crowbar
an open door,
a first squat... 7 houses, 7 occupations

since the first broken lock,
wood cabins & collective gardens
on squatted land,
30 ha of forest to defend,

the beginnings of a treetop village,
resisting the chainsaw & bulldozer.

1600 ha of life, of autonomy,
co-operation & energy against

1600 of concrete,
cheap souvenirs &

the smell of petrol fumes..

the village is organising,
life weaves the web of solidarity

we throw ourselves
against the
sterilisation of land & spirit.

the life & resistance spreads
through this land

threatened to become another victim of
industrial war.

the seeds are planted,
resistance is growing
along with the aubergines & oak trees.

join us for the harvest....
